ABOUT ME

Motivated Full Stack Developer with a strong foundation in MERN stack development, building responsive and scalable web applications. Proficient in React.js, Node.js, Express.js, MongoDB, JavaScript, Python, and REST API development. Passionate about solving real-world problems through technology and eager to contribute technical expertise, collaboration, and continuous learning to a growth-oriented organization.

EDUCATION

Senior Secondary (Class XII) – State Board **JUN 2022- MAR 2023**

- Sowdambikaa Matric Higher Secondary School, Thuraiyur

Secondary (Class X) – State Board **JUN 2020- MAR 2021**

- Sowdambikaa Matric Higher Secondary School, Thuraiyur

Bachelor of Technology (B.Tech) – Computer Science and Engineering **Aug 2023 - May 2027**

- Karunya University

PROJECTS

Farmer to Consumer Marketplace

- An online platform that connects farmers directly with consumers, enabling them to buy and sell fresh agricultural products without intermediaries, ensuring better pricing and accessibility.

HealthGuard AI Symptom Intelligence System

- An intelligent healthcare application that allows users to analyze symptoms and receive preliminary health insights, supporting early awareness and informed healthcare decisions.

Blood Bank Management System

- A centralized system that manages blood donor information, blood inventory, and request processing, helping hospitals and blood banks efficiently coordinate blood availability.

Gas Detection System

- An IoT-based safety system designed to detect the presence of harmful or combustible gases in the environment and provide timely alerts to help prevent accidents, ensuring enhanced safety in homes, industries, and workplaces.

Waste Management System

- A digital solution designed to simplify waste collection, monitoring, and disposal by improving communication, tracking waste-related activities, and promoting efficient waste management practices.

ADDITIONAL INFORMATION

- **Languages:** English, Tamil.

INTERNSHIP

Cisco Academy – Cybersecurity Intern

- Completed practical training in cybersecurity fundamentals, network security, and security best practices while gaining hands-on exposure to cyber defense concepts.

Ediglobe – Web Development Intern

- Assisted in developing responsive web applications and gained practical experience in frontend and backend web development through real-world projects.

CodTech – Java Intern

- Applied object-oriented programming concepts by developing Java applications and improving problem-solving and debugging skills.

CodTech – Python Intern

- Completed Python programming tasks and strengthened coding, logical thinking, and problem-solving skills through practical exercises.
